STUDENT ASSOCIATION OF GEORGE BROWN COLLEGE

Club Endorsement Form

Fall 2026 election | Club endorsement registration

The club completes and signs sections 1–4 and gives the form and representative materials to the candidate. The candidate completes section 5 and submits the package to cro3@sagbc.ca.

Communicate the endorsement only during the campaign period after CRO registration. Submission alone does not authorize communication. Separate campaign-material approvals still apply.

1 Club and candidate information

Recognized Student-Led Club name

Candidate name

Office sought

Authorized club representative name and role

Club representative email

---

2 Endorsement statement and supporting materials

State the substance of the endorsement, including the candidate supported and any reasons for support the club intends to communicate. Attach a continuation sheet if needed.

Endorsement statement

Attach initial or representative endorsement materials, such as draft graphics, captions or email text. List the attachments below.

Attachments

---

3 Communication plan

Identify the club's established communication channels used in its regular activities, with account names, handles or URLs where applicable. Do not include a new account, mailing list, newsletter or channel created primarily to support or oppose a candidate. Describe the anticipated manner and general frequency of communication; an exact number is not required.

Channels and account details

Manner and general frequency of communication

4 Club declaration

The authorized club representative must confirm each statement below.

☐ The club is a Recognized Student-Led Club and independently authorized this endorsement in accordance with its own constitution and applicable internal decision-making requirements.

☐ The club independently initiated the endorsement. The candidate did not solicit or request it.

☐ Any candidate who is a club member, executive or decision-maker did not participate in, influence, vote on or administer the decision concerning their own endorsement.

☐ No prohibited financial, material, operational or coordinated campaign support has been provided or promised. We understand that prohibited support may violate election rules and have disciplinary consequences for a candidate under the applicable By-laws.

☐ The club will communicate its own independently prepared endorsement through the identified ordinary communication channels, without paid or boosted advertising. It will not repost or distribute candidate-created campaign materials or provide prohibited club resources.

☐ The endorsement will identify the club and candidate and will not imply endorsement by the Student Association, Board, Elections Committee, CRO, election officials, staff acting officially, or George Brown College.

I am authorized to confirm this endorsement on behalf of the club. I confirm that the information provided is accurate and that I have read the Directive.

Club representative signature Date

Internal deliberations, membership opinions, voting results and reasons beyond those the club intends to communicate are not required unless directly relevant to an alleged election-rule violation. The club follows its own internal authorization process; no particular voting process is prescribed.

5 Candidate acknowledgment and submission

Candidate email

I acknowledge that the endorsement must remain the club's independent decision. I must not initiate or solicit it, request, pressure, coerce, induce, negotiate for, or offer a benefit in exchange for it. I must not direct, prepare, finance, approve, control or materially coordinate its substance or communication. I may respond to reasonable information requests independently initiated by the club.

If I hold a role in the club, I must withdraw from deliberations and decision-making concerning my own endorsement. Submitting the club's independently completed and signed form does not itself constitute prohibited participation.

I am submitting this signed form and the representative materials directly to the CRO. I understand that submission alone does not authorize public communication. After registration and independent communication, I may acknowledge or share the endorsement subject to applicable campaign rules.

Candidate signature Date

6 Changes after registration

Substantially similar club-created graphics, captions, Stories and reminders may be communicated through registered channels without a new application, provided the substance does not materially change and the activity complies with the Directive. A minor variation in frequency does not itself require re-registration.

Before a material change is communicated, the club must provide the candidate with a signed amendment and relevant representative materials. The candidate must submit it to the CRO and receive the registration outcome before implementation. Material changes include a change in office, endorsement substance or reasons, a new channel, or a substantial change in the manner or frequency of participation. A change in the candidate supported requires a new signed form.

7 CRO use only
